

	Environmental Policy Manual			
	Section	01	Date	Jan 06
	Section Title	Environmental Policy Statement		

The Environmental Protection Act 1990 and various directives issued by the European Community, have placed strict controls on the requirements to protect the environment. The Company specialises in the manufacture of high precision components and assemblies for market sectors such as automotive turbocharger and fuel delivery systems.

- The Company recognises its duties and responsibilities toward protecting the environment wherever they conduct their business, and thus operate a policy of effecting continual improvement with ever changing environmental requirements. It aims to meet or exceed the standards demanded by instruments of environmental legislation. The Company shall also review activities to identify its environmental aspects, and make improvements to define and review objectives and targets to achieve the aims of this policy in an ever-changing environment.

The Company has formulated the following statement of policy, which applies to all persons on site including contractors:

- All environmental impacts of company activities, products and services will be addressed in such a way to cause the minimum impact on the environment
- All activities, products and services will comply with applicable laws and regulations and any other requirements to which the Company subscribes
- The Company will continuously review the substances and materials it uses in line with the COSHH regulations, and take into consideration those that have the lowest impact on the environment in relation to business, and economic needs
- The Company will only use waste disposal companies and facilities where the level of operational control and environmental compliance meets legislative requirements
- The Company will manage its energy usage conscientiously and promote the requirement for energy efficiency throughout its operation
- Noise from the Company's operations will be kept to a level below legislative requirements to ensure minimum nuisance to the local environment
- Immediate attention shall be given to pollution prevention and control. Spillages or discharges of substances will be given attention to minimise impact on the environment. No unusual or unauthorised substances will be released to storm or foul drains other than waste from domestic use
- The Company will provide appropriate and adequate environmental information and training to all of it's employees, contractors and anyone else who may be affected by its operations
- The Company will communicate this policy statement to contractors, suppliers and others working on their behalf, public and interested parties on request.

ALL EMPLOYEES OF THE COMPANY WILL BE MADE AWARE OF THIS POLICY AND IT SHALL BE THE DUTY OF EVERY EMPLOYEE:

- To take reasonable steps to implement this policy personally
- To co-operate with management so far as is necessary to enable this policy and its duties to be fulfilled
- To seek to continuously improve the environmental performance of the company by identifying situations that endanger the environment and suggesting means of minimising potential harm

Signed:.....

President
